

BONJET

EASY POSTER-CLAMP

BONJET EASY POSTER-CLAMP is a simple, easy-to-use, and elegant poster display system, consisting of two aluminium snap bars. One clap bar holds the print on top; the second bar is clipped to the bottom of the print and holds it flat and straight: the bars frame the print at the top and bottom.

The display can be hanged onto the wall or from the ceiling – ideal for advertisement posters in the shop window, or for a vernissage and exhibition in the studio. The top clip bar, depending on the width, has one or two plastic hooks clipped to its back so it can be hanged on nails, or a cord can be inserted.

BONJET EASY POSTER-CLAMP is available in a large variety of widths for posters, ranging from A3+ and A2 in portrait and landscape format up to 60 inch width.

Measures and Dimensions

Maximum Poster Width [cm] 33/40/42,5/50/60/85/110/120/150

The bars are 5mm longer than the maximum poster width.
